History of Ron Maja

Ron Maja was born from the courage and leadership of a woman, **Claudia Urrutia**, who decided to create a high quality rum to honor her country, El Salvador.

Overcoming paradigms and many obstacles, she found one of the best rum masters in the world, "Don Pancho" Fernandez, who helped her create the Premium rum she flavored in her mind and heart.

Ron Maja is a 12 and 8 year Añejo Auténtico, (Truly Aged) rum, developed in the old school style, aged in American oak, bourbon barrels. It is a rum to enjoy slowly, ideally straight, for moments of relaxation or with a good conversation among friends.

Since its launch in 2014, Ron Maja began to win awards in Europe and the Caribbean, and it's quality reached markets in Europe, North and Central America. But especially, Ron Maja began to win the preference and hearts of rum lovers, as a result of the spirit of excellence that transcends borders.

For the founder, the history of Ron Maja continues in the making, with new products coming in the near future, as evidence that, with faith and determination, it is possible to achieve the highest quality and make dreams come true.

For her, it is a testimony dedicated especially to women entrepreneurs.
